AlfaPlus - The Visible Success Plus

The ERP/PPS specialist for the plastics processing industry
With AlfaPlus, you can design and visualize your processes.

They create transparency in the individual areas of the company, make synergies visible and increase profitability, process reliability and quality of your production. Benefit from the experience gained from over 400 installations, mapped in unique and industry-specific functionalities.

AlfaPlus is an integrated, modular ERP/PPS industry software, developed from the user's point of view and specially tailored to the requirements and wishes of the plastics processing industry. As the only ERP solution in the industry, AlfaPlus integrates the other task areas PDA/MDE, control center, CAQ and DMS into a comprehensive complete solution.

With AlfaPlus, you benefit from the continuous development of the solution. Whether latest Windows . Net technology, unlimited availability of all relevant data via Internet and/or WLAN technology or worldwide EDI communication based on VDA/EDIFACT, by choosing AlfaPlus you are always opting for functionality and security.
